Aquatic Supplies

TRADE CATALOGUE

Please contact if desired product is not listed

» ABOUT US

Established in 2006, All Pond Solutions is one of the country's leading aquatic retailers and product manufacturers. We strive to be the only place on the internet that you need for all of your aquarium and pond equipment, and now livestock.

We continually assess our product quality as well as the pricing of our items as it is important to us that our products not only meet the high standards you expect, as well as purchasing the latest goods at the best prices.

» OUR MISSION

At All Pond Solutions, we are dedicated to bringing pond & aquarium supplies and livestock at low prices without sacrificing quality. Our goal is to provide quality fish, plants and products; offering efficient delivery with great customer service.

» OUR FULFILMENT

- Small parcel order fulfilment time approximately 24-48 hours via courier
- Palletised order fulfilment time approximately 3-5 working days (UK Mainland)
- Delivery estimates are subject to reasonable processing time and are not guaranteed
- Additional fees may apply for delivery outside of UK mainland and overseas
- Third party drop-shipping available on aquarium tanks (subject to additional pallet delivery fee)

CONTENTS

- AQUARIUM FILTERS
- AQUARIUM POWERHEADS
- AQUARIUM AIR PUMPS
- AQUARIUM PUMPS
- AQUARIUM PROTEIN SKIMMERS
- AQUARIUM ACCESSORIES
- AQUARIUM LIGHTING
- FILTER MEDIA & SPARE PARTS
- ARTIFICIAL PLANTS
- SAND, STONES & GRAVEL
- AQUARIUM BACKGROUNDS
- AQUARIUM ORNAMENTS & CORALS
- AQUARIUM TANKS
- POND PUMPS
- POND AIR PUMPS
- POND FILTERS
- UV STERILISERS
- POND & GARDEN LIGHTING
- POND ACCESSORIES
- FILTER MEDIA & SPARE PARTS

REWARD SCHEME

The All Pond Solutions Reward Scheme is our way of thanking customers for choosing and using our products. Once you have ordered from us, we like to recognise and reward your loyalty with a competitive range of benefits.

For more details, please ask your Trade Sales Representative

» OUR SERVICE

At All Pond Solutions, we recognise the importance of working in conjunction with other aquatic retailers, wholesalers and maintenance companies within the industry.

We are proud to offer trade customers a wide range of benefits:

DROP SHIPPING AVAILABLE FOR OUR AQUARIUM TANKS

STORE LISTING ON OUR 'WHERE TO BUY' PAGE

DEDICATED TRADE TEAM TO ASSIST WITH PLACING ORDERS & PRODUCT INFORMATION

FREE DELIVERY ON ORDERS OVER £300 NET (MINIMUM ORDER £100 NET)

ACCESS TO HUNDREDS OF PRODUCTS

EXCELLENT MARGINS & COMPETITIVE RRPS

“ We have been working with All Pond Solutions for over a year now and we are extremely pleased with the reaction to their products from our customers. ”

Both pond and aquarium equipment have been well received and are competitively priced. ”

- Jackie Revell, Chiltern Aquatics

APS AQUARIUM INTERNAL FILTERS - IF RANGE

FEATURES

- Designed for submersible use only, with adjustable spray bar to increase oxygen levels
- Venturi aeration nozzle supplied to create bubbles, increase oxygen level of returning water. No air pump needed in principle
- You can use either the spray bar or the venturi aeration nozzle - not both together
- Replaceable filter sponge included inside the unit, in addition to suction caps for attaching to the side of your tank

CODE	PRODUCT	VOLUME	DIMENSIONS
200IF	200L/H Internal Filter 200IF	35 Litres	32 x 38 x 105 mm
300IF	300L/H Internal Filter 300IF	70 Litres	36 x 44 x 115 mm
450IF	450L/H Internal Filter 450IF	90 Litres	43 x 53 x 112 mm
600IF	600L/H Internal Filter 600IF	110 Litres	76 x 50 x 152 mm
800IF	800L/H Internal Filter 800IF	150 Litres	95 x 62 x 287 mm
1200IF	1200L/H Internal Filter 1200IF	250 Litres	70 x 74 x 382 mm

APS AQUARIUM INTERNAL FILTERS - IF+

FEATURES

- 700 litres per hour filtration
- 9w UV built into system
- Fully submersible filtration pump
- Venturi effect: as water is pumped back into the tank, it can also be aerated by a venturi pipe
- Directional water flow outlet
- UV on / off light indicator - easy detection of UV bulb fault / failure
- UV on / off switch on front of body
- Replaceable filter sponge included
- Suctions caps provided for attaching to the inside of your tank
- Suitable for saltwater and freshwater aquariums

CODE	PRODUCT	VOLUME	DIMENSIONS
700IF+	700L/H Internal Filter with 9W UV 700IF+	150 Litres	76 x 90 x 290 mm

APS IF+ REPLACEMENT BULB

CODE	PRODUCT
UV-BULB-9W	9w PLS UV Bulb

APS AQUARIUM CORNER INTERNAL FILTERS

FEATURES

- Designed for submersible use only, with adjustable spray bar to increase oxygen levels
- Spray bar cleaner (located inside the spray bar for ease of cleaning)
- Flow rate controller (located on top of the aquarium filter)
- Filter sponge included inside the unit, in addition to suction caps for attaching to the corner or side of your tank

CODE	PRODUCT	VOLUME	DIMENSIONS
250-CIF	250L/H CIF Internal Corner Filter	45 Litres	83 x 50 x 185 mm
450-CIF	450L/H CIF Internal Corner Filter	90 Litres	90 x 55 x 205 mm
650-CIF	650L/H CIF Internal Corner Filter	110 Litres	105 x 67 x 225 mm

APS AQUARIUM CLEAR INTERNAL FILTERS

FEATURES

- Fully submersible aquarium internal filter
- Suction cups for easy tank glass attachment
- Easily detachable foam casing for easy maintenance
- Optional elbow outlet allows 90 degrees outlet direction
- Venturi air pipe included to aid in increasing tank oxygen levels
- Hosetails included - use the IFC as a standard pump / connect to other equipment

CODE	PRODUCT	VOLUME	DIMENSIONS
600-IFC	Clear Internal Filter	110 Litres	273 x 96 x 132 mm
900-IFC	Clear Internal Filter	170 Litres	215 x 77 x 101.5 mm
1500-IFC	Clear Internal Filter	280 Litres	287 x 77 x 177mm

APS AQUARIUM HANG ON FILTERS

FEATURES

- Suitable for up to 15mm tank rim
- 1 stage mechanical, biological and chemical filtration
- Waterfall effect increases oxygen levels in the water
- Adjustable water flow
- Skimmer supplied (can be attached to inlet tube)
- Active carbon pad and bio block /sponge supplied

CODE	PRODUCT	VOLUME	DIMENSIONS
400-HO	400L/H Hang-on Filter 1 x Active Carbon Pad & 1 x Sponge supplied	60 Litres	120 x 120 x 300mm

INCLUDES 2 YEARS FREE WARRANTY

BEST SELLER

APS AQUARIUM EXTERNAL FILTERS - EF RANGE

Introducing the new and improved EF range of external fish tank filters from All Pond Solutions.

The EF filter range includes many changes to enhance our previous range of fish tank filters, including easier, more consistent priming functionality, and a stronger, more durable body design.

For marine fish keepers, we have paid special attention to improving existing fittings so they last longer in a saltwater environment. In addition to these changes, we now supply each filter with a full 2 years warranty for that extra peace of mind.

These units use a multi-stage filtration process, filtering your tank water through multiple internal layered baskets filled with assorted filter media material, providing extremely thorough biological, mechanical and chemical filtration.

Each external filter in our range operates in exactly the same way as our internal powerhead filters, but are designed to be positioned outside of your tank. Each unit draws water into the filter through an

inlet tube and returns crystal clear water via an outlet tube. The outlet tube is fitted with a spray-bar to help increase oxygen aeration levels within your tank. These filters are ideal for creating more free space within your tank and provide a huge internal capacity for filter media, making them suitable for larger volume tanks.

Each model is supplied with ceramic rings, bio balls, activated carbon and fine floss filter foam. By filtering your tank using the provided filter media, you will observe a vastly improved level of waste-free water as a result of extremely strong biological purification. The filter has an easy access layered filter media basket, making it simple to customise your media choices to suit your aquarium and fish livestock needs.

Maintaining the filter is very simple. The drip-free shut off tap allows you to remove the filter and transport it away from your fish tank to an area more suitable for cleaning. Each filter media basket lifts smoothly out of the unit and can be easily rinsed through and returned to continue its operation.

CODE	PRODUCT	MAX TANK VOLUME	DIMENSIONS
EF1	1000L/H EF External Filter - NEW MODEL	400 Litres	232 x 232 x 395 mm
EF1+	1000L/H EF External Filter+9w UV - NEW MODEL	400 Litres	232 x 232 x 395 mm
EF2	1400L/H EF External Filter - NEW MODEL	600 Litres	258 x 258 x 430 mm
EF2+	1400L/H EF External Filter+9w UV - NEW MODEL	600 Litres	258 x 258 x 430 mm

APS EF AQUARIUM EXTERNAL FILTER

NEW

INCLUDES 12 MONTHS FREE WARRANTY

FEATURES

- Increases external filtration capacity
- Easy to install
- Suitable for aquariums up to 150 litres
- Pump flow rate of up to 400 litres per hour
- Includes 3 grades of filter foam
- Bio balls included
- Suitable for use as standalone filter
- Suitable for freshwater, tropical and marine use

CODE	PRODUCT	MAX TANK VOLUME	DIMENSIONS
EF-150	EF Booster Model with Pump and Fittings	150 Litres	165 x 165 x 295 mm

AQUARIUM UNDERGRAVEL FILTERS

FEATURES

- Designed to fit tanks from 23" (58cm) to 39" (100cm) in length
- The under gravel filter is a biological aquarium filter and makes your gravel act as your filtration medium
- Includes under gravel filter plates - 5.5 inch x 2.75 inch
- 1 x uplift tubes, 1 x air tubes and 1 x small air stones

CODE	PRODUCT

UF-24P	34" x 12" Under gravel Filter - x24 under gravel filter plates
UF-28P	39" x 12" Under gravel Filter - x28 under gravel filter plates

NEW

APS HELIX DESIGN UV STERILISERS

FEATURES

- The All Pond Solutions UV light steriliser range has a unique design which feeds the water through a special helix. This ensures that the water does not just run through the UV, but spins inside, allowing the UV more exposure before the water exits the outlet
- This form of sterilising creates increased efficiency due to a more even exposure of the water to the UV. This improved UV system, the UV clarifier, continues to be a key element of a well filtered clear water system
- The 9w and 11w models are equipped with three inlet / outlets - very useful if you want to run the output to a two-fall waterfall, or a waterfall and a filter
- The 11w model also comes with an advanced thermal protection feature, which automatically shuts the unit down if in danger of overheating
- These sterilisers have a transparent end port, enabling you to check that the UV is fully operational at all times
- Wall mounting brackets attached complete with screws
- Suitable for marine & freshwater aquariums

CODE	PRODUCT	MAX TANK VOLUME
CUV-207	7w UV Steriliser	180 Litres
CUV-209	9w UV Steriliser	250 Litres
CUV-211	11w UV Steriliser	270 Litres
CUV-236	36w UV Steriliser	600 Litres

BOYU BIOCHEMICAL SPONGE FILTER INLET

FEATURES

- Perfect for those looking to add a little extra filtration to their aquarium
- Structured foam for effective bacteria cultivation
- Weighted bottom section for stability
- Excellent for fry tanks
- Compatible with most filter or air pumps

CODE	PRODUCT	DIMENSIONS
SF-100	Small Aquarium Fry Fish Tank Biochemical Sponge Filter Inlet	55mm x 55mm x 120mm
SF-101	Medium Aquarium Fry Fish Tank Biochemical Sponge Filter Inlet	6mm x 76mm x 187mm
SF-102	Slim Aquarium Fry Fish Tank Biochemical Sponge Filter Inlet	77mm x 77mm x 240mm
SF-103	Compact Aquarium Fry Fish Tank Biochemical Sponge Filter Inlet	125mm x 125mm x 195mm
SF-104	Large Aquarium Fry Fish Tank Biochemical Sponge Filter Inlet	122mm x 122mm x 250mm

APS REEF SURGE CIRCULATION PUMPS

The All Pond Solutions Reef Surge wavemakers are fantastic additions to any reef aquarium.

Provided with a feature-packed controller, you can tailor the settings of your reef surge to match your own needs.

If you have two reef surges, these can be programmed to sync wirelessly with each other to create ideal reef conditions in your aquarium, or individually controlled.

The innovative magnet clamp design incorporates a protective rubber cushion designed to minimise vibrations, meaning these run almost silently. Available in 4000 and 8000 L/H models.

FEATURES

- 8 adjustable speed modes
- Intelligent control system to generate a variety of wave modes
- Feed mode - unit will cease operation for 10 minutes before automatically starting again
- Specially designed magnet clamp ensures near silent operation
- Day / night sensor - detects when aquarium lights are switched off and will adjust all connected units to simulate calmer night time waves
- High-performance, powerful water flow combined with low energy consumption

CODE	PRODUCT	FLOW RATE	DIMENSIONS
REEF-SURGE-4000	Reef Surge 4000 Wave Maker - Variable Speed / Pattern	4000 Litres	88 x 58 mm
REEF-SURGE-8000	Reef Surge 8000 Wave Maker - Variable Speed / Pattern	8000 Litres	110 x 84 mm

BENEFITS

- Helps Keep Your Fish Healthy - simulation of waves and currents helps maintain their physical and psychological wellbeing
- It Circulates Water - ensuring water is well oxygenated and avoids 'dead spots'
- Helps Coral and Invertebrates Thrive - circulating water provides them with nutrients
- Prevents Accumulation of Detritus - circulating water prevents build-up of food and fish waste, leaving an aquarium looking cleaner until next water change
- Adds to the Aesthetic Appeal of Your Aquarium - encourages fish to swim more and gives creates a more realistic habitat

APS AQUARIUM POWERHEAD PH RANGE

FEATURES

- Suitable for fresh or saltwater aquarium tanks
- Venturi aeration nozzle supplied to create bubbles and increase oxygen levels of returning water. No air pump needed in principle
- Stainless steel bearing - silent running for years
- Complete with hose and suction cups for fixing to the side of aquariums

CODE	PRODUCT	VOLUME	DIMENSIONS
600PH	600L/H Powerhead	110 Litres	40 x 58 x 70 mm
1000PH	1000L/H Powerhead	180 Litres	75 x 53 x 130 mm
1200PH	1200L/H Powerhead	220 Litres	77 x 77 x 101 mm
1600PH	1600L/H Powerhead	300 Litres	90 x 65 x 160mm

BOYU AQUARIUM POWERHEAD PGB RANGE

FEATURES

- Supplied with suction cups for positioning and stability
- Venturi aeration nozzle supplied to create bubbles and increase the oxygen levels in the returning water. No air pump needed in principle
- Stainless steel rust-proof shaft
- Hosing and downpipe included

CODE	PRODUCT	FLOW RATE	DIMENSIONS
PGB-750	Powerhead 740L/H with Downpipe <i>Suitable for use with the LZ-1000 Boyu fish tank range</i>	740 Litres	96 x 47 x 333mm
PGB-1000	Powerhead 960L/H with Downpipe <i>Suitable for use with the LZ-1000 & LZ-1200 Boyu fish tank range</i>	960 Litres	111 x 54 x 344mm
PGB-1500	Powerhead 1565L/H with Downpipe <i>Suitable for use with the LZ-1500 Boyu fish tank range</i>	1565 Litres	123 x 60 x 335mm

APS AQUARIUM AIR PUMPS

FEATURES

- Ideally suited to supplying air pressure to under gravel and box filters, air stones, and protein skimmers which use ceramic air stones
- Long life and low-frequency operation for continuous use with your aquarium tank
- Flow controller
- Free air stone A-001- 25 (L) x 12mm (D) x 2
- Free air hose (6mm) x 4m
- Free non-return valve x 2

CODE	PRODUCT	DIMENSIONS
AP-1.5-KIT	90L/H Aquarium Air Pump	135 x 70 x 55mm
AP-3-KIT	180L/H Aquarium Air Pump	135 x 70 x 55mm

FEATURES

- Ideally suited to adding oxygen for your fish tank inhabitants, and supplying air pressure to under gravel and box filters, air stones and protein skimmers which use ceramic air stones
- Designed to be run like any normal aquarium air pump using the supplied power adaptor (5v), but comes with the additional feature of battery backup
- The two operational modes mean you can have the air pump running either continuously or '12 seconds on, 8 seconds off, repeat'
- Comes complete with free air stones, return valves and air hose

CODE	PRODUCT	DIMENSIONS
AP-1B-KIT	60L/H Aquarium Air Pump	125 x 75 x 38mm
AP-2B-KIT	120L/H Aquarium Air Pump	125 x 75 x 38mm

APS AQUARIUM WAVEMAKER RANGE

FEATURES

- 360 degree rotation allows you to adjust the direction of the water current, simulating the conditions of the ocean
- Supplied with a high-quality clip-action suction cup for easy attachment

CODE	PRODUCT
WM-2000	2000 Litres an hour wave maker
WM-2500	2500 Litres an hour wave maker
WM-3000	3000 Litres an hour wave maker
WM-5000	5000 Litres an hour wave maker
WM-6000	6000 Litres an hour wave maker
WM-12000	12000 Litres an hour wave maker

APS NANO AQUARIUM AIR PUMP

FEATURES

- Ideal choice for small and nano aquariums
- Slim, compact design with sucker attachment allows the unit to be conveniently hidden on the back of the aquarium, or a surface near the aquarium
- Extremely quiet with very little vibration
- Available in black or white
- Free kit includes 1m of air hose and 1x air stone

CODE	PRODUCT	DIMENSIONS
NANO-AP-WHITE	NANO-AP Aquarium Mini Air Pump in Black	60mm x 30mm
NANO-AP-BLACK	NANO-AP Aquarium Mini Air Pump in White	60mm x 30mm

BOYU AQUARIUM AIR PUMPS - SC RANGE

FEATURES

- This Boyu air pump is ideally suited to supplying air pressure to under gravel and box filters, air stones and protein skimmers which use ceramic air stones
- Long life and low-frequency operation for continuous use
- Locate unit above water level to prevent water flowing backwards (or fit with a non-return valve)
- On/off switch
- Rubber feet for noise reduction

CODE	PRODUCT	DIMENSIONS
SC-3500	190L/H Boyu Air Pump	120 x 75 x 50mm
SC-7500	360L/H Boyu Air Pump	142 x 95 x 70mm

BOYU AQUARIUM AIR PUMPS - S-4000B

FEATURES

- Ideally suited to supplying air pressure to under gravel and box filters, air stones and protein skimmers which use ceramic air stones
- It is easily adjustable, with a control to alter the magnetic circuit on top of the pump. Both long lasting and efficient
- Long life and low frequency for continuous use within your aquarium tank

CODE	PRODUCT	DIMENSIONS
S-4000B	768L/H Boyu Air Pump	206 x 149 x 96 mm

BOYU AQUARIUM AIR PUMPS - CJY RANGE

FEATURES

- Ideally suited to supplying air pressure to under gravel and box filters, air stones and protein skimmers which use ceramic air stones
- Long life and low frequency for continuous use within your aquarium tank
- IPX4: Protected against splashing water - same as IPX3 but water is sprayed at all angles

CODE	PRODUCT	DIMENSIONS
CJY-1000	60L/H Boyu Air Pump	107 x 65 x 64 mm
CJY-3500	210L/H Boyu Air Pump	171 x 91 x 85 mm
CJY-15000	900L/H Boyu Air Pump	259 x 173 x 132 mm

APS SUBMERSIBLE AQUARIUM PUMPS

CODE	PRODUCT	HEIGHT MAX	DIMENSIONS
AQC-200	200 L/H Submersible Water Aquarium Pump <i>Adjustable Flow Rate</i>	0.45 m	40 x 38 x 32mm
AQC-300	300 L/H Submersible Water Aquarium Pump <i>Adjustable Flow Rate</i>	0.6 m	50 x 44 x 36mm
AQ-400	400 L/H Submersible Water Aquarium Pump	0.8 m	60 x 56 x 58mm
AQ-600	600 L/H Submersible Water Aquarium Pump	1.0 m	76 x 66 x 68mm
AQ-800	800 L/H Submersible Water Aquarium Pump	1.3 m	82 x 73 x 75mm
AQ-1000	1000 L/H Submersible Water Aquarium Pump	1.6 m	92 x 82 x 85mm
AQ-1400	1400 L/H Submersible Water Aquarium Pump	2.0 m	102 x 98 x 100mm

FEATURES

- Perfect for smaller tanks or water features
- Made from top standard ABS particles, and is suitable for use in saltwater aquarium tanks

APS DC AQUARIUM PUMP - AQUAFLO-V

The All Pond Solutions AquaFlo-V variable flow rate water pump is designed to be ultra-quiet for submerged pump applications, perfect for use as a marine sump water return pump.

The pump can also stand vertically, which is ideal for sumps with small space as the pumps footprint is very small.

Smart impeller cut-out technology is included within the design of the AquaFlo-V pump to ensure that the pump avoids running out of water, which could cause damage to the pump. This technology senses when the water level is too low and will cut out, only allowing the operation to restart once the correct water level is present.

Included with the pump is a wall mountable controller, capable of varying the water flow rate at 10 different speeds from 3500 up to 8000 litres per hour (15000 litres per hour with the AquaFlo-V model).

The controller also has features including feed mode (turns the pump off for 10 minutes during feeding time) and a lock mode that will avoid unnecessary button presses which change your settings by mistake.

The eco-friendly low wattage settings automatically adjust to the water output rate.

2 YEARS FREE WARRANTY

FEATURES

- High performance motor for highly eco-friendly low wattage
- AquaFlo-V can be positioned vertically for smaller foot print sumps
- Controller now incorporates electronic detection of error conditions and visual warnings.
- Feed Mode, (disables pump for 10 minutes)
- Lock Mode, (avoids accidental setting changes)
- Can be used in marine and freshwater applications
- Long operation life is achieved by the use of wear resistant ceramic shafts

CODE	PRODUCT	FLOW RATE	DIMENSIONS
AQUAFLO-V	Variable rate marine sump pump with controller	3500-8000l/h	192 x 106 x 123mm
AQUA-FLOW-V+	Variable rate marine sump pump with controller	7500-15000l/h	210 x 120 x 139mm

MARINE SUMP OVERFLOW BOX

FEATURES

- Designed to hang over the outside of your aquarium, eliminating the need for drilling messy holes into your aquarium
- Suitable for rims up to 35mm width
- Water can be pumped from the sump into the aquarium, then via the overflow box back into the sump
- Each unit is designed to reduce noise and features a removable safeguard comb to prevent your fish from entering the overflow box
- Manufactured using high-quality acrylic
- Unit designed to reduce noise
- Includes free 12 month warranty

CODE	PRODUCT	FLOW RATE	DIMENSIONS
SOB-01	Marine Sump Overflow Box 2500 L/H	2500	187 x 197 x 260mm
SOB-02	Marine Sump Overflow Box 5000 L/H	5000	237 x 197 x 260mm

JEBAO DC AQUARIUM PUMPS

FEATURES

- Designed to be ultra-quiet for submerged pump applications
- Can be used in marine and freshwater applications
- High performance motor with innovative electronics resulting in power savings up to 65%
- 10 speed controller

FEATURES

- Conical design allows foam to accumulate more steadily
- Smooth twist collection cup for easy cleaning / maintenance
- Micro chip technology prevents the skimmer pump from overheating
- Extreme performance DEVIL SP3 pinwheel pump

CODE	PRODUCT	MAX TANK VOLUME	DIMENSIONS
DSL-850	Marine Sources Devil Streamline Protein Skimmer	850L	250 x 510mm

HANG ON PROTEIN SKIMMER

FEATURES

- Removable skimmer body/bubble plate design
- Extreme performance needle wheel impellers
- Equipped with innovative dual venturi air intake unit
- Smooth twist collection cup for easy cleaning / maintenance
- Air intake silencer for each needle wheel pump included

CODE	PRODUCT	MAX TANK VOLUME	DIMENSIONS
DHO-850C	Hang On Professional Protein Skimmer	850L	205 x 600mm

MARINE SOURCES BIOPELLET REACTORS

FEATURES

- The Marine Sources biopellet reactor is designed to be used with biopellet media. Its modified micro-hole panel design and chamber are perfect for biopellet specific fluidised bed reactor use.
- Hang on bracket for easy positioning on tank or sump rim
- Twist and lock lid design avoids leakage

CODE	PRODUCT	MAX TANK VOLUME	DIMENSIONS
BRP2.2	Marine Sources Biopellet Reactor	600L	135 x 400mm
BRP3.0	Marine Sources Biopellet Reactor	900L	150 x 425mm
BRP4.3	Marine Sources Biopellet Reactor	1200L	160 x 500mm

MARINE SOURCES CALCIUM REACTORS

FEATURES

- Equipped with high quality Devil pump
- pH probe holder for the pH electrode / sensor
- Co2 re-absorption port calcium reactor design can re-absorb and fully utilise the Co2
- Calcium reactor add-on chamber is recommended before connection of the calcium reactor to the aquarium system

CODE	PRODUCT	MAX TANK VOLUME
DCR-120	Marine Sources Calcium Reactor	1500L
DCR-150	Marine Sources Calcium Reactor	3500L
DCR-200	Marine Sources Calcium Reactor	6500L

MARINE SOURCES NITRATE REACTOR

FEATURES

- Minimises nitrate levels to help improve coral & fish health and reduce algae growth
- Can be used with a variety of different filter media, including bio balls, bio-rings, activated carbon, phosphorus absorption materials, sulphur beads & calcium tablets

CODE	PRODUCT	MAX TANK VOLUME	DIMENSIONS
DNR-150	Marine Sources Nitrate Reactor	2500L	150 x 665mm

MARINE SOURCES FLUIDISED BED REACTOR

FEATURES

- Fluidised bed reactors are an ideal addition to large or heavily stocked aquariums
- By suspending fine grained media in a water column, contact time is increased for highly efficient biological filtration

CODE	PRODUCT	MAX TANK VOLUME	DIMENSIONS
FBF900	Marine Sources Fluidised Bed Reactor	900L	120 x 500mm
FBF1600	Marine Sources Fluidised Bed Reactor	1600L	150 x 500mm

CORAL ACRYLIC FEEDER TUBE

FEATURES

- The feeder head is made of premium silicon material that will not harm your coral
- Designed with large, high quality suction head
- Tube made of high grade acrylic, reducing the risk of breakages

CODE	PRODUCT	LENGTH
CFT-2	Coral Acrylic Feeder Tube	55cm

AQUARIUM & CORAL VIEWER

FEATURES

- Allows clear views of your coral from the top of your aquarium without distortion of the surface water
- Can be used with a camera to photograph coral & fish from the surface of the tank

CODE	PRODUCT	DIMENSIONS
CV-200	Aquarium & Coral Viewer	75 x 200mm

FILTER SOCKS 150 MICRON

FEATURES

- Removes excess food, detritus, organic waste, dust and other particulates
- Filter socks also help prevent larger objects from damaging return pump motors

CODE	PRODUCT	DIMENSIONS
FS-M150	4" Filter Sock 150 Micron	110 x 385mm
FS-XL150	7" Filter Sock 150 Micron	180 x 450mm

FILTER SOCK HANG ON BRACKETS

FEATURES

- Made from high quality acrylic material
- Can be installed by hanging on to the aquarium or filtration sump, or by screwing into place

CODE	PRODUCT	DIMENSIONS
HBF-1	Filter Sock Hang On Bracket 4"	110mm diameter
HBF-3	Filter Sock Hang On Bracket 7"	180mm diameter

CORAL FRAG BRACKETS & PLUGS

FEATURES

- Baskets designed to hold and fix frag plugs for the growth of SPS corals
- Made of high quality acrylic, these brackets are provided with strong suction pads to securely fix to the side of an aquarium

CODE	PRODUCT	DIMENSIONS
CRB-08	Coral Frag Bracket 8 Plug Holes	140 x 80 x 60 mm
CRB-13	Coral Frag Bracket 13 Plug Holes	150 x 150 x 60mm
CRB-23	Coral Frag Bracket 23 Plug Holes	240 x 110 x 60mm
CRP-20	Coral Frag Plastic Plugs x 5	n/a

BOYU AQUARIUM AIR STONES

FEATURES

- Excellent for oxygenation, producing very fine aeration air bubbles, and can be used in conjunction with any quality pond or aquarium air pump

CODE	PRODUCT	DIMENSIONS
A-001	Ceramic Air Stone	25mm/1"
AS-09	Ceramic Air Stone	50mm/2"

S-01	Circular Ceramic Air Stone	25mm/1"
S-05	Circular Ceramic Air Stone	50mm/2"

BOYU AQUARIUM AIR BUBBLE CURTAINS

FEATURES

- Will create a wonderful curtain of air bubbles across your tank, and due to the flexible quality of the air curtain you are able to lay the curtain out in whatever shape you wish
- For use with an aquarium air pump and air hose (not included)

CODE	PRODUCT
AIR-CURTAIN-45	Flexible Aquarium Fish Tank Bubble Air Curtain 45CM
AIR-CURTAIN-60	Flexible Aquarium Fish Tank Bubble Air Curtain 60CM
AIR-CURTAIN-75	Flexible Aquarium Fish Tank Bubble Air Curtain 75CM
AIR-CURTAIN-90	Flexible Aquarium Fish Tank Bubble Air Curtain 90CM

NATURAL COLOUR CIRCULAR SLAB AIR STONES

FEATURES

- Excellent for oxygenation, producing very fine aeration air bubbles, and can be used in conjunction with any quality pond or aquarium air pump
- These circular disc high-quality, long-life air stones are made from a refined ceramic compound

CODE	PRODUCT	DIMENSIONS
ASC-100	Natural Colour Circle Slab Air Stone 100mm Diameter	100 x 18mm
ASC-150	Natural Colour Circle Slab Air Stone 150mm Diameter	150 x 18mm

AQUARIUM NET BREEDERS / QUARANTINE

FEATURES

- These fish tank net breeders are ideal for separating and protecting newly born fry, preventing them from being eaten or bullied by other fish in the larger aquarium environment
- Helps to isolate sick fish or fish that are getting bullied by other fish and yet keep them in the same water

CODE	PRODUCT	DIMENSIONS
NB-3201	Aquarium Net Breeder	160 x 140 x 140 mm
NB-3202A	Aquarium Dual Net Breeder	260 x 150 x 150 mm
FH-101	Aquarium Hatchery for Breeding and Fish Quarantine	100 x 900 x 205mm

BOYU AQUARIUM WATER LEVEL ALARM

FEATURES

- Alarm beeps when water is too high or too low
- Includes suction cups for attaching the unit to the sides of your tank

CODE	PRODUCT
SW-01	Aquarium Water Level Alarm

CLEAR AIR HOSE 6MM / 8MM

FEATURES

- Clear air pipe air hose for use with all pond and aquarium air pumps

CODE	PRODUCT
AIR-HOSE-6MM-ROLL	Air Hose 6mm x 90 metres (APPROX) - ONE COMPLETE ROLL
AIR-HOSE-8MM-ROLL	Air Hose 8mm x 40 metres (APPROX) - ONE COMPLETE ROLL

APS AQUARIUM HEATERS

FEATURES

- ☛ Completely submersible
- ☛ Chrome nickel helical heating coil is designed for maximum life and even heating
- ☛ Fresh and saltwater compatible
- ☛ Easy access temperature control dial

BOYU AQUARIUM SYPHON CLEANERS

FEATURES

- ☛ On / off flow control valve
- ☛ Integrated gravel / fish guard
- ☛ 2 metres of tubing from siphon to end tap
- ☛ 10" triangular prism shaped siphon tube included - making it easier to get into hard to reach corners

CODE	PRODUCT
GC-301	Triangular Hand Pump Aquarium Syphon Cleaner

FEATURES

- ☛ Innovative auto siphon pump, quick and easy to use
- ☛ On/ off flow control valve
- ☛ Integrated gravel / fish strainer
- ☛ 6" siphon tube Included plus 2 metres of tubing from siphon to end tap

CODE	PRODUCT
BY-28	Hand Pump Aquarium Syphon Cleaner

BOYU AQUARIUM FISH NETS

FEATURES

- High quality fine fish nets for aquarium fish tank use
- Perfect for moving fish from one tank to another safely, or for basic tank maintenance tasks
- Ideal for tropical, coldwater and marine fish tanks
- Available in 3", 6" and 9"

CODE	PRODUCT
FN-3"	Aquarium Fish Catch Nets 3"
FN-6"	Aquarium Fish Catch Nets 6"
FN-9"	Aquarium Fish Catch Nets 9"

BOYU AQUARIUM PLANT TOOLS

FEATURES

- These Boyu plant tweezers and scissors are light, convenient and simple tools for re-arranging water plants inside your aquarium fish tank
- Made of stainless steel, these durable tools make aquascaping and general plant maintenance inside your tank easy and quick

CODE	PRODUCT	DIMENSIONS
WPC-1	Aquarium Tweezers BOYU	270mm Length
WPS-1	Aquarium Scissors BOYU	260mm Length

BOYU AQUARIUM GLASS MAGNET CLEANERS

FEATURES

- Designed to clamp the glass from both the inside and outside, smooth brushing movements will rub away any unsightly marks or algae
- These large magnet cleaners are also supplied with a built-in thermometer feature, to help you keep an eye on the temperature of your tank

CODE	PRODUCT	DIMENSIONS
WD-502	Standard Magnet Cleaner	90 x 55 x 70 mm
WD-505	Large Magnet Cleaner	120 x 72 x 87 mm

T8 FLUORESCENT TUBES (Minimum order 50 tubes)

AVAILABLE IN MARINE WHITE, BLUE & RED FOR TROPICAL GROWTH

FEATURES

- Our range of T8 aquarium fluorescent tubes offer good colour performance and high light output
- Fits all major manufacturers
- Min. order 50 tubes - can be a mixture of colours/sizes
- Can send smaller quantities with palletised orders

CODE	PRODUCT	LENGTH
T8-TUBE-10W	T8 10W Fluorescent Tube	344mm

AQUARIUM STRIP LED LIGHTING - ZETLIGHT LANCIA RANGE

The Zetlight Lancia LED lighting system makes a great addition to any aquarium with its excellent output and 120° beam angle. The system is able to fit almost any aquarium on the market, and can even be attached to the bulb sockets on existing T5 and T8 lighting systems, allowing you to fit it inside the hood of your aquarium.

Alternatively, with the additional purchase of a wireless receiver (Package B) and a wireless controller (Package C), the system can be completely wirelessly programmed and controlled to provide a whole variety of extra features including a lunar phase mode, acclimation mode and 100 levels of brightness.

One wireless controller (Package C) is able to control over 99 individual light units. Each individual unit will require its own individual receiver (Package B).

Using one Lancia LED system is the equivalent of using two T5 luminaires on your fish tank. The beam has an angle of 120 degrees, giving an excellent quality to the emitted light. This system has low power consumption, is more eco-friendly, safer and gives the LED greater durability.

Optional Wireless Control

These user friendly lights are easy to control using the switch on the side to switch between daylight and night time modes and to switch the unit on or off.

Controller must be used with receiver. Package A and B are not in this package. They should be purchased additionally.

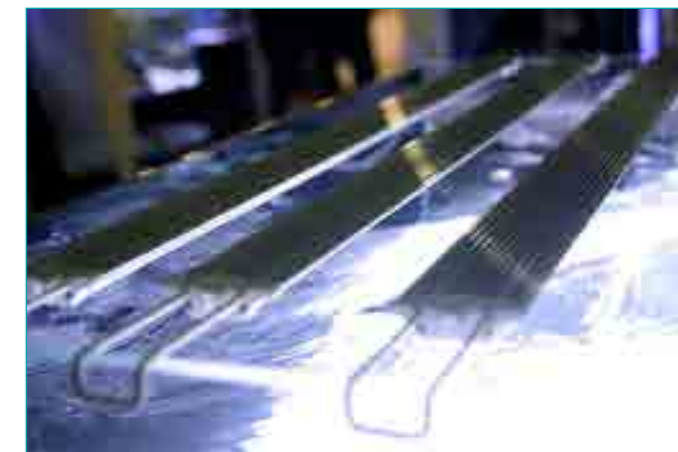

T5 or T8 Replacement

The new LANCIA LED lighting is able to replace the fluorescent tubes in the conventional T5 and T8 systems. Simply remove the T5 or T8 lights from their sockets to quickly and easily fit the new LED lighting.

Extendable Brackets

LANCIA LED lighting has metal brackets at both ends, so that you can place them on top of your aquarium. These brackets are extendable, adapting to all aquariums, regardless of size.

FEATURES

- ✦ Slim and modern design
- ✦ Extendable brackets to fit your tank
- ✦ Excellent output and 120 degree beam angle
- ✦ Low power LED eco-friendly system
- ✦ Wireless remote control operates up to 99 light units
- ✦ Time control with perpetual calendar mode, enabling the light to shift according to solar patterns
- ✦ 5 timer settings create a natural sunrise to sunset cycle with 100 levels of adjustable brightness
- ✦ Mimics the lunar cycle - perfect for stimulating the reproduction of aquarium corals

APS TROPICAL NANO AQUARIUMS - FW RANGE

Our new range of high quality nano aquariums are ideal for those who are newcomers to fish keeping. Perfect for both a freshwater and tropical set up, our FW range have a curved design, allowing unspoilt, panoramic viewing of our tank inhabitants.

Each tank comes equipped with a 250 litres per hour pump with venturi included for increased aeration.

The filter tray, supplied with fine filter foam, is easily accessible by simply lifting the top of the hood, meaning no removal of the hood is required for maintenance.

Each tank is provided with eco-friendly high performance LED lighting built into the hood, with an external 'splash safe' light switch for easy operation.

Ideal for keeping shrimp, small goldfish, minnows, Siamese fighter fish and other small fish. If using as a tropical fish tank, a heater is recommended.

CODE	PRODUCT	DIMENSIONS
FW-7	7L Nano Tank with LED Lighting & Filtration	230 x 160 x 275mm
FW-14	14L Nano Tank with LED Lighting & Filtration	290 x 200 x 330mm
FW-29	29L Nano Tank with LED Lighting & Filtration	380x 260 x 405mm

250 LPH PUMP INCLUDED

FILTER TRAY EASILY ACCESSIBLE

BUILT-IN LED LIGHTING

AQUATRESOR MONEY BOX AQUARIUM

-Available in 3 colours; black, blue and pink

FEATURES

- Aquatresor is a child friendly and easy-maintenance aquarium fish tank designed especially for small children
- Comes complete with a money box built into the fish tanks hood. When money is deposited, your child will be able to see their money build up in the clear case money box at the back of the tank
- Includes a BIOBOX 0 filter with an EasyFlux 200 water pump and FREE filter media, 1kg of sand, 1 plastic plants, 1 water conditioner sachet and 1 food sachet

MARINE NANO AQUARIUMS

The Orca Nano Reef System is a completely self-contained marine nano fish tank aquarium.

Packed with innovative features that are built into the lid and back filter compartment area, these tanks are perfect for not only the reef keeping specialist but is also a great place to start for the beginning hobbyist.

The filtration area is completely hidden at the back of the tank and holds the included flow pump, return pump, protein skimmer, heater, UV steriliser and filter media.

For easy cleaning and maintenance, the aquarium hood can slide to the back of the aquarium to hang vertically down the rear wall of the tank, allowing full unhindered access to the filter area.

The aquarium hood houses 2 x 18w T5 10000k PL Lighting, with each bulb having two tubes comprising of a white and blue light for marine fish keeping. Dual low noise fans are housed in the top of the hood for cooling purposes.

FEATURES

- Suitable for freshwater, tropical and saltwater marine fishkeeping
- Built-in hood filtration and lighting
- Manufactured with an amazing curved glass front edge, providing an uninterrupted 180 degree view of your tank inhabitants

APS HIGH OUTPUT AQUAECO POND PUMPS

The AquaECO series of pond pumps from All Pond Solutions with its brand new innovative electronics brings massive energy savings, low noise and long durability, while maintaining high performance.

Compared to other pond pump brands, the wattage use of the AquaECO range of pond pumps is extremely economical, saving you money in the long run.

Designed to circulate water to a pond filter or waterfall, the pumps cage is specially designed to prevent it clogging by providing the maximum surface area for drawing water in through the guard to the pump.

Included with the AquaECO pump is an additional inlet that allows you to attach hose to the inlet of the pump, providing water directly from a source such as a pond skimmer.

Designed to be placed straight into your pond, the AquaECO will simply draw water directly in through the filter cage, through the pump and out of the directional hosetail outlet.

By attaching the included hosetail inlet to the front of the pump, you can direct an alternative water source (such as pond skimmer) directly into the front of the pump.

The inlet and outlet hosetail adaptors direction can be adjusted by slightly unscrewing the blue hosetail nut, adjusting the angle to your requirements and then re-tightening the hosetail nut.

The filter cage is secured using four strong clips which allow for easy tool free access to your pump and impeller area. The cage design incorporates a convenient handle meaning the AquaECO pump can be removed from your pond easily, avoiding potential damage by pulling the power cable to retrieve the pump.

APS ALL IN ONE POND PUMP - CUP-311

The All Pond Solutions All-in-One CUP-311 System combines everything required to run a healthy algae-free small to medium sized pond. Designed as a single smart unit with a single power cable, it allows for a much easier installation compared to a standard pond set up.

The CUP-311 includes a built-in 11w UVC lamp and filtration system, combined with a 2500 litres per hour pump eliminating the need to purchase an external filtration system, which can be difficult to integrate around the landscaping of a small pond.

The filtration media provided includes a large coarse filter foam that water must pass through first, and also three filter media baskets, two of which are filled with ceramic biological filter media and the last with K1 filter media. Alternatively, you could change the media included inside these baskets for an alternative pond filter media of your choice.

Access to the inside of the CUP-311 is extremely easy thanks to the four clips positioned 2 on opposite sides of the unit. Once these are removed you have full access to all filter media areas for cleaning and maintenance. Removing the pump and steriliser is achieved by unscrewing 3 screws, allowing these parts to be removed completely clear of the CUP-311 base.

This system is also supplied with a high quality fountain attachment set, comprising of three different fountain attachments - ideal for a variety of displays in your pond. The set also includes a splitter, enabling you to divert water to a water feature, and both the splitter and fountain are flow-rate adjustable. This gives you total control over the strength of your fountain and the volume of water diverted from the unit.

FEATURES

- ✔ For use in ponds up to 4000L (ornamental)
- ✔ For use in ponds up to 2500L (small mix of fish)
- ✔ Water pump included
- ✔ UV steriliser included
- ✔ Pond filter included
- ✔ Water fountain set included (3 different heads)
- ✔ Water fountain has angle-adjustment feature
- ✔ Coarse filter foam, ceramic stones and K1 media included
- ✔ Adjustable flow-rate T-connector included
- ✔ UV on/off light indicator on top of casing
- ✔ Case guards stop debris larger than 7mm entering the unit

CUP-129 ALL IN ONE POND PUMP

The All Pond Solutions All-in-One System combines everything required to run a healthy algae-free small-sized pond. Designed as a single smart unit with a single power cable, it allows for a much easier installation compared to a standard small-pond set up.

Our CUP-129 Pond System has a built-in 9w UVC lamp and a built-in filtration system, eliminating the need to purchase an external filtration system, which can be difficult to integrate around the landscaping of a small pond.

This system is also supplied with a high quality fountain attachment set, comprising of four different fountain attachments, ideal for a variety of displays in your pond. The set also includes a splitter, enabling you to divert water to a water feature, and both the splitter and fountain are flow-rate adjustable. This gives you total control over the strength of your fountain and the volume of water diverted from the unit.

FEATURES

- 🌿 Recommended for use in ornamental ponds up to 1000L
- 🌿 Recommended for use in ponds with a small mix of fish up to 500L
- 🌿 Water pump, UV steriliser & pond filter included
- 🌿 Water fountain with angle-adjustment feature included
- 🌿 Filter foam and maifan stones included
- 🌿 Adjustable flow-rate

APS PRESSURISED SPIN CLEAR POND FILTERS

Our range of PFC pressurised pond filters with built-in UV clarifiers are designed to be continuously pressurised by your pond pump, maintaining excellent water quality for healthy fishkeeping.

Water can be fed directly from your pond pump through to the filter container and subsequently the outlet, continuously under pressure at all times. The water outlet can be located higher than the actual filter body, making it easier to disguise around the pond - particularly useful if incorporating a waterfall.

Supplied with a fantastic new rotating cleaning handle on the head, maintaining the pressurised filter is now even easier.

The unit will inform you when it is in need of a detailed clean using a small float, which pops-out of the head of the unit when required.

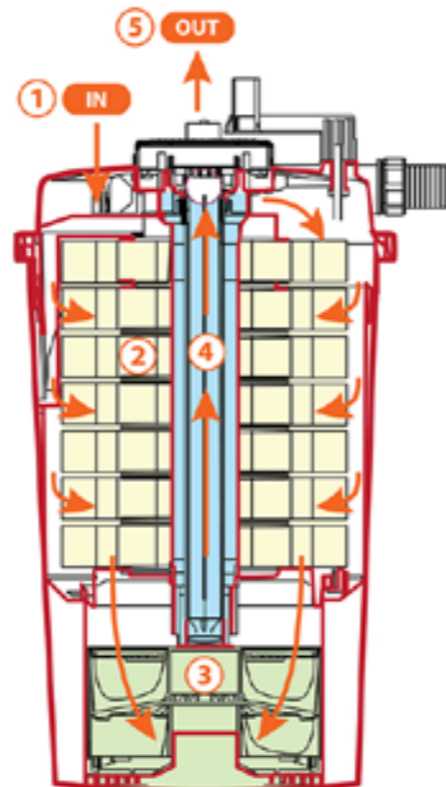

By simply turning the handle you can rinse clean the interior sponge, reducing the need to disassemble. Once rinsed, a separate outlet can be opened to discharge any dirty water until it runs clean and basic maintenance is complete.

Each unit is supplied with a built-in UV light, which effectively prevents growth of algae, and eliminates harmful micro-organisms and parasites which may cause fish diseases.

FEATURES

- ✦ Pressurised filter allows exiting water to run up-hill
- ✦ Biological and mechanical filter chambers for more efficient removal of dissolved and solid waste
- ✦ Simple quick handle cleaning system for easy maintenance (no need to open and clean foams all the time)
- ✦ Enables rapid growth of aerobic bacteria resulting in removal of lethal ammonia and nitrite
- ✦ Able to cope with higher water flows compared to traditional gravity filters
- ✦ Complete with inlet and outlet hose adapters

APS HELIX DESIGN UV STERILISERS

FEATURES

- The All Pond Solutions UV light steriliser range has a unique design which feeds the water through a special helix. This ensures that the water does not just run through the UV, but spins inside, allowing the UV more exposure before the water exits the outlet
- This form of sterilising creates increased efficiency due to a more even exposure of the water to the UV. This improved UV system, the UV clarifier, continues to be a key element of a well filtered clear water system
- The 9w and 11w models are equipped with three inlet / outlets - very useful if you want to run the output to a two-fall waterfall, or a waterfall and a filter
- The 11w model also comes with an advanced thermal protection feature, which automatically shuts the unit down if in danger of overheating
- These sterilisers have a transparent end port, enabling you to check that the UV is fully operational at all times
- Wall mounting brackets attached complete with screws
- Also suitable for marine & freshwater aquariums

CODE	PRODUCT	MAX POND VOLUME
CUV-207	7w UV Steriliser	2000 Litres
